L. 4. NO. 283 MONESSEN, PA., THURSDAY, MAY 31, 1906. SIX CENTS THE WEEK

EMORIAL DAY ELL OBSERVED

blic Schools Turn Out and Swelled Parade.

r the first time in the history of essen Decoration Day was fittinly rved yesterday and the National colre were flying in the air throughout the .

e ministerial association started the ement and to that organization is due h credit for the successful celebration. parade started about 2:30 o'clock and made up of the survivors of the Civil the principals, teachers and scholars e Monessen Public schools headed he two local bands, the Monessen and Drum Corps and the Nonpariel tary band. The line of march ted at Sixth street, down Sixth to ner, out Donner to Ninth, up Ninth choonmaker thence to Fifth, down h to Donner, thence to Electric park ere the speaking took place. The ade was beautiful, each child carrying and an American flag.

he park grounds were crowded with ple and the exercises were enjoyed by present. Rev. Wright offered a prayollowed by an address by Rev. J. R. ner, Mayor Shutterly made the adss of welcome, Rev. Jamieson spoke "Patriotism for the Schools," followed a few appropriate remarks by Rev. eck. All joined in singing "America" l the exercises were brought to a se.

IONESSEN IS STILL GROWING

& L. E. Railroad is to Make Improvements at Once.

That Monessen is destined to become mewhat of a railroad center in the very ar future is demonstrated in the fact at the P. & L. E. railroad company has gun work putting in new switches so at all engines and shifting crews will y over in Monessen instead of Belle rnon as heretofore.

The new switches will be put in at e lower end of town near the Page oven Wire Fence Co's plant. Work is already been started. It is the intention to put in additional tracks, and ean out pit, new switches and every ing to facilitate the company's busin at this place. All shifting crews will ake their home in Monessen as soon as e work is done and arrangements can perfected to that end

This news will be hailed with joy by siness men and any body interested in e welfare of Monessen as the increased opulation adds another impetus to the rosperity of our city.

Beatrice Williams Dead.

Beatrice Williams, 21 years of age, daughter of Mr. and Mrs. David Williams of 356 Schoonmaker avenue, died very suddenly this morning at 8 o'clock of appendicitis. Miss Williams had been ailing for several days past but was not considered in a critical condition until a few minutes before her death.

Miss Williams had been a faithful employe at the Tin mill and has a large circle of friends in Monessen who will be grieved to learn of her sudden death

She was a home girl and will be greatly missed in the family circle. She is survived by a father and mother, six sisters and two brothers The funeral will take place Saturday, but the exact time has not yet been set. Interment will be in the Monessen cemetery.

Still Working.

The residence of Katheryn Locke on Donner avenue was burglerized last night and the lady was relieved of $190 in cash. The burglar unlocked a door came into the house and took the cash from a dresser drawer in an upstairs room. Miss Locke keeps a boarding house and the money was the earnings from her boarders. The burglar business has become a "chestnut" and it is time for a special effort to be made to run in some of these prowlers.

NEVIN A. CORT OF MOUNT PLEASANT

For District Attorney of Westmoreland County.

In this issue of the Daily Independent we take pleasure in announcing to the voters of Monessen and vicinity the candidacy of Nevin A. Cort, of Mt. Pleasant for District Attorney. Mr. Cort represents in himself those sterling qualities of heart and mind, and that quality of business and social integrity which makes a man capable and trustworthy in every walk of life. All that he has achieved in the field of learning—of law and of literature—is his by right because they were won single handed in humanity's strife for individual opportunities to win in life's battle against adverse environment. Many were the obstacles that stood in the way of Mr. Cort to the goal of his ambition, which was a university education and the practice of law. But his superior strength of character, moral worth and sterling manhood were superior to all obstructions, and he achieved on personal merit, and today though still a young man, he stands in the forefront of the community as the fittest man to fill the office of District Attorney to the entire satisfaction of the people of this great county. He stands out in this fight which has developed to be one of the hottest contests in the history of Westmoreland Republican ranks, without the support of a political boss and today he stands as a peer among his opponents. He is a capable man for the office and is gaining strength as the primaries draw near.

GOOD ROADS.

The Washington Journal says: The question of good roads is going to be a leading issue in the not far distant future, and one which must be met in an intelligent manner. Taxpayers have about come to the conclusion that impassable highways are nothing but a continual expense, with no benefits arising therefrom, and it is high time improvements of a permanent character be made. In speaking of a highway across the state, a project which has recently been revived, the Philadelphia Press says:

"There ought not to be a county in the state which is not crossed in at least two directions as nearly as may be at right angles by a road for which the commonwealth has paid and which the commonwealth maintains. There ought not to be a town or borough which is not crossed in the same way in at least two directions by roads which the county has laid down. Lastly, the lesser roads needed to reach these state and county highways should be built by the local taxation of the township." Monessen has been advocating an outlet for the town for several years, yet every attempt to get it has been racked by Rostraver township. We have been asking for nothing more than we need, must have and will get, yet Rostraver township has opposed us on account of the alleged expense it will be to the taxpayers to keep the road in shape, yet the said township can afford to pay $10,000 for one life that was wrecked while the victim was trying to get to a neighboring town. Rostraver people will open their eyes after while. $10,000 would give us a good outlet.

THERE is a young man in Monessen who, when he goes into a barber shop for a shave loses all patience if he has to wait ten minutes for his turn, and yet when he leaves and hurries to the home of his "steady" to take her to the theatre, he will sit with all the patience of Job for a straight two hours if needs be, while the girl is getting her hat on straight and buttoning her gloves.

THE climate certainly is doing its best to puzzle the spring poets.

Now you politicians who are out for a time, have it. But remember after this nomination is over, every good Republican will abide by the results. We will elect the ticket as nominated and after that we want work. Good honest effort in payment of the debt to the people.

ALFONSO might as well make up his mind that matrimony always spoils the king business in at least one house.

EVERY little bit helps—to convince the people that their only hope is to drive the corporations out of politics.

Wanted—Reliable man over 25 years old—good pay weekly. Write immediately if you want work; positively all summer's job Engage now. Glen Brothers, Rochester, N. Y. 17 26

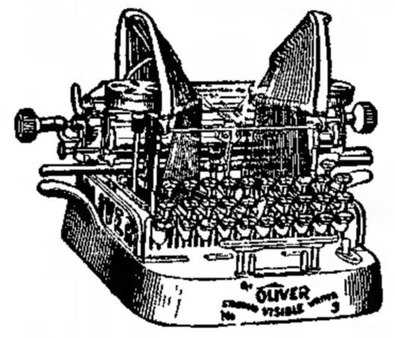
THIS TYPEWRITER DELIVERS THE GOODS

It's the Oliver—the Standard Visible Writer.

The Oliver Typewriter is just like an athletic stripped for a race



It is free from unnecessary multiplicity of wires and springs

No net work of flimsy keys to get tied into hard knots

The nimble fingered stenographer can put talk into type with this machine just as rapidly as she takes your dictation.

For no matter how swiftly she writes, she can see just what she's doing

The keyboard is so wonderfully responsive to the touch of the finger tips that speed comes without effort.

The factors that make for speed are its visible writing, its light, elastic key-touch, and it's all 'round simplicity. It has the fewest possible wearing points, and it prints with a downward stroke.

The OLIVER Typewriter

THE STANDARD VISIBLE WRITER

is a flawless piece of mechanism, combining the strength of tested steel with the perfect adjustment of the works of a watch. You can use an Oliver a life time and the type will not lose alignment

It never suffers from nervous prostration; requires only a little oil and plenty of exercise to keep it at the highest point of efficiency.

The hum of Oliver Typewriters is heard in the most progressive business houses in the land. Sales increasing at a phenomenal rate. Get acquainted with the Oliver! Write for the Oliver book—we send it free with our compliments.

SUBMARINE REEFS.

How They Are Located by the Naval Engineers.

Prior to the nineteenth century navigation, except on the high seas, was mainly that of the Irish pilot who claimed to know all the rocks in the harbor. "An' there's wan of thim!" said he as he struck.

On approaching land one needs to know how far he is from the lighthouse or headland in sight. Triangulation tells him. Two points on land being taken for the base of the triangle, lines from these points, representing the other two sides of the triangle, are drawn until they intersect. That apex of the triangle will be the point where the observer is. Then the distance from his point to the land can be easily calculated.

The maritime wars under Napoleon disclosed the dangerous ignorance of French mariners about their own seacoast. French vessels were unable to break or run their enemies' blockade. After peace was established Beautemps-Beaupre was appointed as the organizer and chief of corps of engineers to chart the whole coast of France. His work was so well done that the other naval powers hastened to chart their own coasts according to his methods.

The head of a rock may easily escape ordinary soundings, or lie between soundings. When covered by ten or more feet of water and unmarked by ripples or breakers, it is hard to find. Even when known it is hard to get soundings. The lead may glide over it, so that even in well surveyed waters some unlucky ship out of hundreds passing there may "find the rock with its keel."

Groups of buoys with grappling irons are lashed together in long sweeping lines and sunk behind the small sounding boat until they touch bottom, and are then towed until they strike a rock. In calm weather rocks and reefs may be seen at great depths from great heights in balloons. Even after a rock has been discovered, its depth and position must be precisely ascertained. Fishermen, too, help make known these uncharted rocks, rewards being offered for all new ones discovered.

England, the United States, Spain, Italy and other maritime nations have adopted French methods. Japan for years has devoted to the subject its usual minute, trustworthy and masterful study, but has imitated the English crowded and complicated charts rather than the artistic execution of the French.—New York Tribune.

Toilet—Toylet.

In the "New World of Words," 1720, "toilet" is defined as "a kind of Tablecloth or carpet made of fine Linnen, Satin, Velvet or Tissue, spread upon a Table in a Bed Chamber where Persons of Quality dress themselves; a Dressing-cloth." A similar definition is given in Bailey's dictionary. The origin of the word is curious, for Cotgrave has: "See 'Tollette,' 'A toylet, the stuff which drapers lay about their cloths; also a bag to put nightgowns in.'" In the "Rape of the Lock," 1, 121, "toilet" seems used for the table and its contents:

And now, unveil'd, the toilet stands display'd,
Each silver vase in mystic order laid.

—Notes and Queries.

Giant Tomato Plants.

The largest tomato plants in the world are found in California. One grower has three plants which have reached a length of thirty feet. In three months from the time the seeds were planted the vines had climbed to the top of a twenty foot trellis. The trunks of these plants, says What to Eat, are one and a half inches in diameter and the foliage is thick and luxuriant. Enormous quantities of tomatoes have been picked from them and the fruit is of unusual size, possessing an extraordinary fine flavor.

Lava.

Lava may be blown into opaque bottles of gossamer lightness, and the harder sort makes a beautiful green glass of half the weight and double the strength of ordinary glass. But it is not always the same. Every volcano pours out its own special brand of molten mixture, disagreeable to walk on, but sometimes yielding precious products, as pumice stone. Lava, like all things, decomposes under the touch of time, as the fertile plains of Sicily testify.

Marriage.

"What I want," said the young man, "is to get married and have a peaceful, quiet home."

"Well," said Farmer Corntossel, "sometimes it works that way, and then again sometimes it's like joinin' a debatin' society."—Washington Star.

Curiosity Aroused.

"Papa, what makes the cheese smell so?"

"The process by which it was cured, I presume."

After some moments of profound cogitation. "Papa, what would it smell like if it hadn't been cured?"

A Chance For Somebody.

"Very strange, isn't it, about the story of Adam and Eve?"

"How?"

"Why, as far as I know, it hasn't been worked up into a historical novel."—Watson's Magazine.

Injuries of Life.

The injuries of life if rightly improved will be to us as the strokes of the statuary on his marble, forming us to a more beautiful shape and making us fitter to adorn the heavenly temple.—Cotton Mather.

The wise prove and the foolish confess by their conduct that a life of employment is the only life worth leading.—Paley.

How Cyanide Was Discovered.

Scheele in 1783 laid the foundations for the manufacture of cyanide of potassium. With prussiate of potash for its base, dried animal matter of any and all kinds was dumped into the superheated vessels containing the potash, together with iron filings and borings. A stonelike black mass resulted from the cooling, and other processes brought the final lemon colored crystals which resulted from evaporations of the solutions. From these crystals prussic acid was evolved, of which a 2 per cent solution is the pharmaceutical preparation, yet so powerful that four drops will kill a large dog. A chemist, putting a cyanide solution in a gold lined dish in 1844, discovered that the gold was dissolved in the liquid. This was the beginning of the gold plating process by the use of cyanide and the further involvement of the poison came about in electroplating, in photography and in treating refractory gold ores.—Technical World.

A Canadian Paradise.

Temagami is shaped like an octopus, with long stretched out arms, and its shores are indented with deep circling bays, island strewn and culminating in cape points and curves that add to the beauty of this magical scene. "The lake of deep waters" is the meaning of the Indian word, and they lie very deep and cool in their bed of granite, in stillness a perfect mirror, in storm rarely menacing, with foam edged waves showing fanglike teeth. Being a hundred square miles in area, Temagami forms one of Canada's great natural reservoirs. Mighty rivers from the height of land to the north flow into it, and it in turn feeds the streams that flow southward, carrying their life giving waters through the forests to the peopled lands below. There are 1,000 islands in the lake, and the government has included the whole area in a magnificent forest reserve of a million and a half acres.—Kate Westlake Yeigh in Four Track News.

Jammed Fingers.

Few people have escaped jammed fingers, and as the pain caused when the finger is jammed in a door is excruciating in the extreme for the first few minutes it is well to know of some means of relief. The finger should be plunged into water as hot as can possibly be borne. This application of hot water causes the nail to expand and soften, and the blood pouring out beneath it has more room to flow. Thus the pain is lessened. The finger should then be wrapped in a bread and water poultice. A jammed finger should never be neglected, as it may lead to mortification of the bone if it has been badly crushed, and amputation of the finger must follow. Jammed toes are usually caused through the falling of heavy weights and should be treated in the same way as a jammed finger.

New York's First Sidewalk.

The first sidewalk in New York was laid by a woman, Mrs. Samuel Provoost, about 1716. She was an importer and merchant and laid the sidewalk for the convenience of her customers. She had importuned the authorities to do it, but they refused, saying it was impossible. After her object lesson paving and curbing gradually came in, but for some time her sidewalk was so famous that people journeyed even from Philadelphia to see it.

If any one has any doubt as to the virtue of Foley's Kidney Cure, they need only to refer to Mr Alvin H. Stimpson, of Willimantic, Conn., who, after almost losing hope of recovery, on account of the failure of so many remedies, finally tried Foley's Kidney Cure, which he says was "just the thing" for him, as four bottles cured him completely. He is now entirely well and free from all the suffering incident to acute Kidney trouble. Sold by The Avenue Drug Store.

RENT PAYS FOR LAND.

Fertile Sections of the Southwest, Where Land Sells for $15 and Rents for $2 per Acre.

One of the remarkable things about Eastern Arkansas and Northern Louisiana is the fact that cleared land rents for $5 per acre cash, and can be bought for $7.50 to $15 per acre. It costs from $6 to $10 an acre to clear it. Other improvements necessary are slight and inexpensive.

The soil is rich alluvial, or made. It produces a bale of cotton per acre, worth $45 to $60. This accounts for its high rental value. Other crops, such as corn, small grains, grasses, vegetables and fruits, thrive as well.

Alfalfa yields 4 to 6 cuttings, a ton to a cutting, and brings $10 to $16 per ton.

In other sections of these states, and in Texas as well, the rolling or hill-land is especially adapted to stock raising and fruit growing. Land is very cheap, $5 to $10 per acre; improved farms $10, $15 to $25 per acre.

The new White River country offers many opportunities for settlers. High, rolling, fine water—it is naturally adapted to stock and fruit raising. Can be bought as low as $3 per acre.

See this great country for yourself and pick out a location. Descriptive literature, with maps, free on request.

The Missouri Pacific-Iron Mountain System Lines sell reduced rate round trip tickets on first and third Tuesdays of each month to points in the West and Southwest, good returning 21 days, with stop-overs. For descriptive literature, maps, time tables, etc., write to

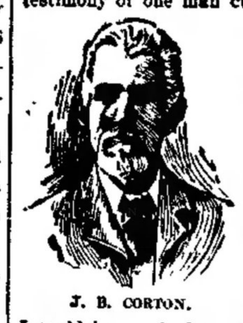
Couldn't Lift Ten Pounds.

Doan's Kidney Pills Brought Strength and Health to the Sufferer, Making Him Feel Twenty-Five Years Younger.

Sick kidneys cause a weak, lame or aching back, and a weak back makes a weak man. Can't be well and strong until the kidneys are cured. Treat them with Doan's Kidney Pills. Here's the testimony of one man cured.



J. B. CORTON.

J. B. Corton, farmer and lumberman, of Deppe, N. C., says "I suffered for years with my back. It was so bad that I could not walk any distance nor even ride in easy buggy. I do not believe I could have raised ten pounds of weight from the ground, the pain was so severe. This was my condition when I began using Doan's Kidney Pills. They quickly relieved me and now I am never troubled as I was. My back is strong and I can walk or ride a long distance and feel just as strong as I did twenty-five years ago. I think so much of Doan's Kidney Pills that I have given a supply of the remedy to some of my neighbors and they have also found good results. If you can sift anything from this rambling note that will be of any service to you, or to any one suffering from kidney trouble, you are at liberty to do so."

A FREE TRIAL of this great kidney medicine which cured Mr. Corton will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. Sold by all dealers; price, fifty cents per box.

One would think the Laxative idea in a cough syrup should have been advanced long before it was. It seems the only rational remedy for Coughs and Colds would be to move the bowels and clean the mucous membranes of the throat and lungs at the same time. Kennedy's Laxative Honey and Tar does this. It is the Original Laxative Coughs, Colds, Croup, Whooping Cough, etc. Tastes good and is harmless.—Sold by R. W. Beck.

The tar that is contained in Bee's Laxative Honey and Tar is harmless. It is not coal tar, but is obtained from the pine trees of our own native forests. Bee's Laxative Honey and Tar is the best remedy for colds because it acts on the bowels—thus expelling all colds from the system. Bee's is the original Laxative Honey and Tar, and is best for coughs, colds, croup, whooping cough, lung and bronchial effections. Sold by C. A. Light.

Don't frown—look pleasant. If you are suffering from indigestion or sour stomach, take Kodol Dyspepsia Cure. Hon Jake Moore, of Atlanta, Ga., says: "I suffered more than 20 years with indigestion. A friend recommended Kodol. It relieved me in one day and I now enjoy better health than for many years." Kodol digests what you eat, relieves sour stomach, gas on stomach, belching, etc.—Sold by R. W. Beck.

A liquid cold cure for children that is pleasant, harmless and effective is Bee's Laxative Honey and Tar. Superior to all other cough syrups or cold remedies because it acts on the bowels. An ideal remedy for Coughs, Colds, Croup, Whooping Cough and all curable lung and bronchial effections in child or adult. Pleasant to take. Sold by C. A. Light.

If you are troubled with Piles and can't find a cure, try Witch Hazel Salve, but be sure you get that made by E. C. De Witt & Co., Chicago. It is the Original. If you have used Witch Hazel Salve without being relieved it is probable that you got hold of one of the many worthless counterfeits that are sold on the reputation of the genuine De Witt's Witch Hazel Salve.—Sold by R. W. Beck.

The gums and resins obtained from pine trees have long been recognized as highly beneficial in the treatment of backache, kidney and bladder troubles. Pine-ules is the name of a new medicine, the principle ingredients of which come from the pine forests of our own native land. Sold by C. A. Light.

Mothers everywhere praise One Minute Cough Cure for the sufferings it has relieved and the lives of their little ones it has saved. A certain cure for coughs, croup and whooping cough. Makes breathing easy, cuts out phlegm, and draws out the inflammation. It should be kept on hand for immediate use.—Sold by R. W. Beck.

It is not difficult to relieve blind bleeding, itching or protruding piles with ManiZan, the great pile remedy. It is put up in collapsible tubes with nozzle, and may be introduced and applied at the seat of the trouble. Stops pain instantly. Sold by C. A. Light.

Indigestion is much of a habit. Don't get the habit. Take a little Kodol Dyspepsia Cure after eating and you will quit belching, puffing, palpitating and frowning. Kodol Digests what you eat and makes the stomach sweet.—Sold by R. W. Beck.

For bloating, belching, indigestion, etc., eat a Ring's Dyspepsia Tablet after meals. Sold by C. A. Light.

The best safeguard against headache, constipation and liver troubles is De Witt's Little Early Risers. Keep a vial of these famous little pills in the house and take a dose at bedtime when you feel that the stomach and bowels need cleansing. They don't gripe.—Sold by R. W. Beck.

PEOPLE'S DEMAND IS BEING HEARD

Party Lash Will Not Be Used in Approaching Convention.

BOSSES HAVE LEARNED LESSON

Fair Field and No Favors Accorded to All—Thompson of Fayette Seems to Meet Requirements of Situation Best—Is Close to the People.

Pittsburg, May 30.—The political discord which has prevailed in almost every section of Pennsylvania during the past year or more has forced the Republican leaders of the state to "stop, look and listen," and it is now apparent that further confusion in the party's affairs is to be avoided by the people coming wholly and entirely into their own. With the Republican state convention but a week away it is most pleasing to the voters to realize that no slate has been made for the coming convention and that no slate is likely to be made which does not come direct from the people. The party lash has gone out of fashion and the voice of the political boss is no longer heard. The right to slate or name candidates for public places, always inherent in the people, is now being recognized more than in years and the belief is general that at the coming convention of the Republicans of the state the voice of the people will be heard in no uncertain way and that the candidates for governor and other state places will be chosen at the Harrisburg convention next week by the duly elected delegates to that important gathering. The bosses of former days have wisely determined to stand aside in the interest of party harmony and graciously yield to the nomination of a state ticket which will restore harmony to the grand old party and which will promote the success of that party which in the past has made substantially for the advancement of every material interest in this state and this nation.

To the people it must be pleasing to realize that just now when party harmony most needs consideration the Republicans of the state are turning with hope and confidence to Josiah Van Kirk Thompson, the banker, philanthropist and advance agent of prosperity.

JOSIAH VAN KIRK THOMPSON.

Mr. Thompson is one of the most conspicuous figures in Pennsylvania. He comes from the plain people and he has always been with them and for them. He has been eminently successful in his own affairs and detests and hates dishonor and discredit. By his own individual efforts he chiseled out of the rock of opposition a commanding place in public affairs, yet he is as modest as a woman. He enjoys the polish of a collegiate, has keen business sense and is broad-gauged and wonderfully capable. He is educated and is the firm friend of education. He was graduated from Washington and Jefferson college and that great institution has shared liberally in the brilliant success of his life. Mr. Thompson has brought to hundreds of his business associates substantial means and those who know him best appreciate him most for his plain honesty and his disposition to play absolutely fairly with everybody His hand, made powerful by his own industry, has never been extended to oppress. "Joe" Thompson, as he is known by his neighbors of all political faiths, is beyond question closer to the people than any other prominent Republican in Pennsylvania and those about him, great or mean, have found him always helpful. He is just as rich morally and physically as he is financially and among the Republicans generally he is looked upon as the man of the hour. He is as big as the office he seeks and no combination of political place hunters could be formed which would discredit a single one of his sterling qualities. He fits in to the general demand for reform in the affairs of the state. He answers in detail every suggestion now being made by those concerned for political betterment and he rises, a mental and physical giant, to the demands of the whole people. The indications are that Mr. Thompson will be the Republican nominee for Governor of Pennsylvania. Should he be nominated his triumphant election is assured.

A FEW SQUIBS.

For the Consideration of the Voters. Shall it be Robbins or Huff?

(CONTRIBUTED)

Last week's revelations before the interstate commerce commission has changed the face of the congressional campaign in Westmoreland county' Congressman Huff's Keystone company came in for the lion's share of exposure by the unwilling "stock graft" witnesses. Col. Huff, himself, capped the sheaf of discredit by dobging a subpeona to appear and tell what he knew about gifts of stock to "friendly" railroad officials. He denies dodging through the cellar, but this does not help his case.

Summing up the evidence the Philadelphia Press says Huff's "favored Keystone company was the root of the stock graft." The president of this company is not regarded as a proper representative of this district in congress to support President Roosevelt's policy of a square deal for every man. Col. Robbins, on the contrary, stands firmly on that platform.

Col. Huff opposes restriction of immigration because an unlimited supply of foreign labor helps him to keep wages down. He employs a body guard to protect him from foreign anarchists and does not care if they do come in. A vote for Robbins is a vote to keep the "Black Hand" and the other criminal societies out of America.

Col. Huff. opposes eminent domain for trolley roads because his railroad friends do not like any one to share their good things. He can ride in his own automobile. He is promoting an automobile road between Pittsburg and Philadelphia, past his 1,000 acre summer home, at the expense of the state. The mob may ride the trolley cars if they can get them.

Hon. E.E Robbins stands on an honest platform, an honest and able man. In Congress he would be a credit to the district, ready to fight its battles, not a silent representative of a favored coal company.

The voters of Monessen dont care anything about process servers. They are ballot servers and next Saturday they will serve their ballots in a manner that they will get service in return Ignore the appeal of the people and they will ignore you everytime, everytime, don't you know?

Huff has stepped on Robbins platform, but he cant hold it down. He better stick to the full dinner pail and let the "square deal" alone.

The three hundred Monessen men who appealed to Congressman Huff last year for his attitude on foreign immigration and who were ignored by that gentleman all have a vote at the primaries next Saturday. He cannot ignore the appeal that they will make for a representrive in Congress who will at least give them a hearing. Every man is entitled to a hearing you know.

Huff is trying to steal Robbins platform. He says he stands for restriction of foreign immigration. Why didnt he say so before, somebody prompted him?

If Robbins goes to Congress he will work untiringly for the best interests of his constituency. If Huff goes he will loaf.

If Robbins is elected and a body of men send a letter to their representative in Congress asking his cooperation on certain measures they will at least get a reply. Huff ignores his constituency.

Letter to A. W. Ferren.

Monessen, Pa.

Dear Sir: You sell a good many things by the gallon. Being a decent man, you give full measure.

You know what we mean: you know that short weight and short measure are common among—well, we hope there are no short measure and weights in your town.

There are, though. Ribbons and laces and trimmings, sold by the "dozen," measure nine or ten yards. There is no complaint, because "they all do it."

You have the same plague in your goods—nearly everything, canned or bottled, cheats in the quantity. Almost nobody gives full weight in a factory-package!

We are one of the almost nobodies. We sell paint, by the gallon, to paint your house; and our gallon is just the same size as yours that you measure vinegar with—231 cubic inches.

Good paint too—Devoe lead and-zinc—takes fewer gallons than mixed paint and wears twice as long as lead-and-oil.

You own a house. That's why we are writing to you.

Yours truly

A VIGOROUS CAMPAIGN.

Berky Boyd of Scottdale Hard After Nomination For Legislature.

Aggressive and systematic campaign work is being done by Berkey H. Boyd of Scottdale, who comes before the voters at the primaries next Saturday from 2 to 7 asking for nomination to the Assembly ticket in the Second district. Mr. Boyd comes from a long line of Republicans and began to take an interest in party work before he cast his first vote, and never since that time has he lessened his work for the party. He has served for years, and is now serving, as a member of the County Committee, and is a member for a three year term of the School Board. He is a young merchant, courteous and aggressive as well, so that he is putting up a strong claim for recognition for Scottdale, which, although large, and strong with Republicanism, has not asked for or held any county office for years. Mr. Boyd is a student of public affairs and in favor of those laws which benefit the greatest number of the people, so that a vote for Boyd for Assembly is a vote for the interests of the voter. It is certain that Mr. Boyd will make a strong impression in the district, and that he will have a very large vote. It

LEAD PENCIL JOHN B. MILLER

Asks Voters of Monessen for Support.

John B. Miller, commonly called Lead Pencil Miller, of Latrobe, spent Decoration Day in Monessen, making speeches to the voters. Mr. Miller is out for the nomination for Prothonotary and is conducting a vigorous personal campaign over the county. He claims the support of the voters on the ground that he has lived in Westmoreland county for forty-two long years and has always been an active worker for the best interests of the Republican party.

He was a candidate for Sheriff eleven years ago and for Treasurer four years ago and was defeated both times, but accepted his defeat gracefully and kept on working for his party. He comes from Latrobe, one of the Republican strongholds in the county and his town has no elective officer in either state or county and has thousands of voters.

Mr Miller asks that his party distribute the offices throughout the county and thus tend to harmonize matters in the party ranks and to this end he asks the support of the voters of Monessen.

GRAMMAR GRADE EXERCISES

Large Class of Grammar School Graduates This Year.

One of the most enjoyable features of the closing week of school was the exercises given by the students who completed the common school course.

There were 29 members of the class. There were 15 boys and 14 girls. The members of the class furnished the entire program. The stage was tastfully decorated with flowers, and everthing s emed in harmony with the youthful vigor that was so well represented by so large a class. This class was double that of any other class that has ever entered the High School, not only is this true of numbers but it is considered an exceptionally strong class so far as the work of the school is concerned.

The future of each member of the class will be watched with interest by those who were present and by teachers and parents who are associated among them.
